

Known issues in the UASC data processing tool for FAA AeroNav Services NFD

The ARINC 424 Class and Type fields for MLS NAVAIDS are not properly processed by UASC database packing software. Until the processing software is modified, the following MLS NAVAIDS in the 802-NFD database contain invalid data in the type and class fields, all other data for these NAVAIDS is correct:

MBUG – New Castle

MMWH – Grant Co Intl

MPPN – Pope AFB
