**Reference: AIRAC AMDT 3/11**

Please note that the following airways currently in Navtech/EAG databases should have been deleted for cycle 1112.

**UB350**  
**UB351**  
**UB356**  
**UG134**  
**UG661**

In AIRAC AMDT 3/11 the UB and B airways were combined and are now called B350, B351, B356. And UG and G airways were combined and are now called G134 & G661.

These corrections have been made for cycle 1113 data.
